Konačno, vi i vaš tim morate biti u potpunosti svjesni da pokretanje poslovanja znači odustajanje od dvije stvari - vremena i novca. To često znači rad do kasno navečer i vikendom, te da ste zadnji u redu za isplatu. Uspjeh sa inovacijskom tvrtkom uzima sve: sve vaše vrijeme, sve vaše velike ideje, puno osobne žrtve — a može oduzeti sav vaš novac. *Finally, you and your team must be fully aware that starting a business means giving up two things - time and money. It frequently means working evenings and weekends, and being last in line for payment. Succeeding with an innovation-based company takes everything: all of your time, all your great ideas, lots of personal sacrifices — and it may take all of your money.*

Osnovna djelatnost društava *The main activities of the Company*
